WMWL is the largest independent management company in **Scandinavia**, covering some of the leading legends from Scandinavia as well as **Chicago, Manchester, Berlin** and beyond.

WMWL cooperates with partners such as **Heineken, WESC, Swedish Techno and more** and would be happy to set up a representation for each of them at at your club or festival site. This could be done either through a specific **“Heineken-stage” for example**, or through Heineken being main sponsor of a **WMWL** scene with leading names in electronic music.

Beside our own roster, we have amazing network around the globe in order to secure you the **best names for lowest price possible** since we have a certain exclusivity thanks to our current roster and can **bypass main agents** through direct cooperations with artists and labels.

WMWL is also showing the way in future music services through partnership with start-up **location based music service Tunaspot**. Also we partner with **Swedish Techno**, and numerous media partners such as **Nöjesguiden**, music blogs and more. Our in-house blog **House Music With Love** is one of the marjor blogs in Scandinavia with an acclaimed **podcast series**.
